

THEODORA N. ORJI

Software Engineer | Full-Stack & AI Systems

+44 7424 346916 | theodoraanneoma@gmail.com | Newcastle, UK | linkedin.com/in/theodora-orji | theodoraportfolio.site

PROFILE

Software Engineer (MSc Computer Science) with 4+ years of experience engineering full-stack applications and integrating LLM-powered features. Proven expertise in React, TypeScript, Node.js, and prompt engineering, alongside a strong foundation in digital accessibility (WCAG). Experienced in driving technical architecture in fast-paced startup environments and translating complex system designs into business value.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, SQL, Java

Frameworks & Libraries: React.js, Next.js (App Router), Node.js, Expo (React Native), Tailwind CSS, Wordpress

AI & LLMs: Prompt Engineering, LLM Integration (OpenAI, Anthropic/Claude APIs, AWS Bedrock), AI Training & Evaluation, Dataset Curation

Backend & APIs: REST APIs, SQL, PostgreSQL

Cloud & DevOps: AWS (Cloudfront, Cognito, API Gateway, Lambda, S3), Azure (foundational), Git, GitHub, CI/CD, Docker

Practices: Agile/Scrum, Code Review, System Design, WCAG 2.1 Accessibility Standards

PROFESSIONAL EXPERIENCE

Software Developer / AI Researcher — Tekkdose Ltd, Bristol, UK *Contract* / Apr 2025 – Present

- Designed and shipped core LLM features (OpenAI/Claude APIs, AWS Bedrock) serving 120+ active users, reducing response latency by 10% through prompt optimisation.
- Own architecture decisions, code quality standards, and sprint planning across a cross-functional team for an early-stage AI startup.
- Present technical capabilities and system scalability to investors, translating complex architecture into clear business value during fundraising discussions.
- Established code review workflows and Git best practices, reducing integration conflicts and improving team velocity.
- Conducted research into AI policies, digital accessibility, Responsible AI, and Ethical AI, translating findings into documented guidelines to support the development of a robust, digitally inclusive AI platform.

AI Trainer / Code Reviewer — Outlier, US *Remote, Part-Time* / Nov 2024 – Jul 2025

- Evaluated and curated 600+ machine learning training prompts across React, JavaScript, Python and PHP, improving rubric compliance by 25%.
- Documented reusable evaluation methodologies adopted by the wider review team to maintain consistency at scale.
- Reviewed and improved LLM-generated code across JavaScript, React, and PHP, assessing quality, correctness, and responsiveness against defined rubrics.

Freelance Web Developer — Self-Employed *Remote* / Feb 2024 – Nov 2024

- Designed and developed 6+ client websites, including portfolios, small business sites, and landing pages, managing projects end-to-end from brief to deployment using Javascript, wordpress and ReactJS.
- Applied WCAG 2.1 accessibility best practices throughout, achieving an average accessibility score of 80%

Junior Frontend Developer — CallPhone Ltd (Fintech), Abuja, Nigeria *Feb 2023 – Feb 2024*

- Built and optimised user-facing dashboards for a fintech platform, improving page load performance by 5% and streamlining key user flows.
- Participated in regular code reviews and iterative sprints, contributing reusable React components to a shared component library.

- Reduced average frontend issue resolution time by 8% through systematic diagnosis of support-escalated bugs.

Software Developer Intern — TIIDELAB, Abuja, Nigeria Jun 2022 – Dec 2022

- Led a team of 10 developers, delivering a functional web application within a six-month programme timeline.
- Conducted user research with 20+ participants, directly informing system design decisions and UI/UX direction.
- Collaborated with designers on front-end implementation, delivering core features within the programme timeline.

EDUCATION

MSc Computer Science — 2:1, Northumbria University, Newcastle, UK (2023 – 2025)

BSc Human Kinetics and Health Education, University of Port Harcourt, Nigeria (2015 – 2019)

CERTIFICATIONS & PROFESSIONAL MEMBERSHIP

- WCAG Specialist Certification — BCS, The Chartered Institute for IT (2026)
- Data Privacy, Governance & Policy in AI — BCS, The Chartered Institute for IT
- Professional Member — BCS, The Chartered Institute for IT
- Certified Prompt Engineering — Udemy
- Introduction to AI & Machine Learning — Udemy

VOLUNTEERING & LEADERSHIP

- Technical Trainer, TekkLab Bootcamp — teaching real-world developer workflows, team dynamics, and responsible AI governance to aspiring AI product managers.
- Founder, Catch Them Young Initiative — girls-focused STEM programme for children aged 8–14, delivered in partnership with TekkLab.
- Technical Mentor, Studio3 LaunchPad — guiding early-career developers through projects, code reviews, and career planning.
- Volunteer, Altitude Foundation — supporting young people exploring pathways into technology careers.
